Utah globally and state rare vascular plant lists and guide references

List of all URPG taxa with full treatments by name (with links to descriptions/diagrams/photos)

Introductory talk for URPM 2017: an historical perspective How many Utah rare plant meetings have there been? When did western US native plant societies get started? And the TNC-UNPS-RBG connection to the University of Utah's Walter Cottam. March 4, 2017 talk by Tony Frates

UNPS Rare Plant Committee lists

2016-2026 UNPS Utah Rare Plant Master List (first added here Dec. 2017; last updated 2/26/2026)

PLEASE PROVIDE YOUR COMMENTS to the list above including suggested changes/additions/rankings to: unps@unps.org

Calochortiana Num. 3 May 2016 contains the UNPS Rare Plant List "Version 2" and is the latest published list

Calochortiana Num. 1 Dec. 2012 the UNPS Rare Plant List "Version 1" (see Version 2 which is the update list)

Developing a Utah Rare Plant List Nov. 2009 *Sego Lily* which also includes the first ranking list using the Fertig method

2009 UNPS Utah rare plant list published 11/01/09 (companion to the 2009 newsletter above)

Report listings based on URPG data:

Utah Map with county names

Utah rare plants

List of vascular plant taxa:

Total of 290 taxa listed here (there are more to be added - see rare plant master list).

Plants occurring in Utah with a formal federal status as of 1/13/22:

25 listed (12 LT, 13 LE)

0 candidates (C) (candidate count increased from 3 to 5 on 10/25/16 due to a Colorado court decision then less 3 on 12/19/18 less 2 on 1/13/22)

For an explanation of NatureServe rankings including G-ranks and S-ranks, see [NatureServe Conservation Status Ranks]

Utah DWR Field Guide (includes NatureServe Ranks): https://fieldguide.wildlife.utah.gov/

ESA status codes: LE=listed as endangered; LT=listed as threatened; C=Candidate species; PE=Proposed Endangered; PT=Proposed Threated; EM=Emergency listing package submitted; NOR=Notice of review

See bottom of this page for a brief discussion of taxa formerly federally listed from Utah.

Taxa as ranked by the UNPS Rare Plant Committee since 2009:

Year	exH	High	Total
2009	31	114	145
2012	31	119	150
2014	37	135	172
2016	38	142	180
2019	50	139	189

Comments: exH species are all globally rare and all but two are local endemics. Over 80% of the High priority species are local endemics. The rest are mainly regional endemics but also include a few state rare taxa.

	Botrychium lineare	Slender moonwort	Adder's tongue	G1 C 6/6/01, removed CNOR 12/6/07	H
	Botrychium paradoxum	Parado x moonwort	Adder's tongue	G2	N

	Calochortus ciscoensis	Cisco Sego Lily	Lily	G3	W
	Camissonia atwoodii More recently treated as *Chylismia atwoodii*	Atwood's camissonia	Evening primrose	G2	W
	Camissonia bairdii More recently treated as *Chylismia scapoidea* subsp. *macrocarpa*	Baird's camissonia	Evening primrose	G1	W
	Camissonia exilis More recently treated as *Chylismia exilis*	Slender camissonia	Evening primrose	G1	H
	Camissonia gouldii More recently treated as *Eremothera gouldii*	Gould's camissonia	Evening primrose	G1?	W
	Carex curatorum	Canyonlands sedge	Sedge	G2	W
	Carex haysii	Hays sedge	Sedge		H

	Carex specuicola	Navajo sedge	Sedge	G2 **LT** 5/8/85	exH
	Castilleja aquariensis	Aquarius paintbrush	Figwort	G2 formerly C NOR 12/15/80, removed CNOR 9/12/06	H
	Castilleja parvula	Tushar paintbrush	Figwort	G2	H
	Castilleja revealii	Reveal's paintbrush, Bryce Canyon paintbrush	Figwort	G2	H
	Ceanothus franklinii Treated by FNA and POWO as *C. pauciflorus*. Raised to the species level, i.e. as *C. franklinii* Welsh, in the 5th ed. of *A Utah Flora* (2015).	Franklin's ceanothus; Ben's ceanothus	Buckthorn	G5T1T2	W

	Chrysothamnus nauseosus var. *psilocarpus*	Huntington rabbitbrush	Sunflower	G5T1T2	W
	Cirsium ownbeyi	Ownbey thistle	Sunflower	G3	W
	Cirsium virginense *C. virginense* has been lumped with *C. mohavense* in the Flora of North America (vol 19, pg 134), and the distinction between perennial (*C. virginense*) and biennial (*C. mohavense*) may not be valid. Even if recognized as *C. mohavense* it would remain rare in Utah at the periphery of its range here, and since *C. mohavense* is a globally rare species. The latest research (Ackerfield, 2023) indicates that this should be treated as *C. mohavense*.	Virgin thistle	Sunflower	G2	H
	Cleomella palmeriana var. *goodrichii*	Goodrich	Caper	G3G4T?	H

		cleomella			
	Corydalis caseana subsp. *brachycarpa* 2013 rare plant meeting presentation: Wasatch Fitweed Pollinators	Wasatch fitweed	Poppy (formerly Fumitory)	G5T2	H
	Cryptantha compacta	Mound cryptanth	Borage	G1	W
	Cryptantha creutzfeldtii	Creutzfeldt-flower	Borage	G2	W
	Cryptantha grahamii	Graham's cryptanth	Borage	G3	H
	Cryptantha johnstonii	Johnston's cryptanth	Borage	G1G2	W
	Cryptantha jonesiana	Jones cryptanth	Borage	G2G3	W

	Cryptantha ochroleuca	Yellowish cryptanth	Borage	G1?	W
	Cryptantha osterhoutii	Osterhout's cryptanth	Borage	G2G3	Nr
	Cryptantha semiglabra	Pipe Springs cryptanth	Borage	G1?	H
	Cycladenia humilis var. *jonesii*	Jones cycladenia	Dogbane	**LT** 5/5/86	H
	Cymopterus acaulis var. *higginsii* Cronquist (1997) in *Intermountain Flora* Vol. 3A included *C. acaulis* var. *higginsii* under *C. acaulis* var. *fendleri*. Sun et al (2005) in *Rhodora* determined that *C. acaulis* was nomenclaturally invalid placing it in *Cymopterus glomeratus* but without	Higgins spring-parsley	Parsley	G5T2	H

	distinguishing any varieties. This leaves the above entity currently in taxonomic limbo.				
	Cymopterus acaulis var. *parvus* Cronquist (1997) in *Intermountain Flora* Vol. 3A included *C. acaulis* var. *parvus* under *C. acaulis* var. *greeleyorum*. Sun et al (2005) in *Rhodora* determined that *C. acaulis* was nomenclaturally invalid placing it in *Cymopterus glomeratus* but without distinguishing any varieties. This leaves the above entity currently in taxonomic limbo.	Small spring-parsley	Parsley	G5T2T3	W
	Cymopterus beckii	Pinnate spring-parsley	Parsley	G1	
	Cymopterus minimus	Least spring-parsley	Parsley	G1G2Q	W

	Cymopterus purpureus var. *jonesii* To be treated as *Cymopterus jonesii*	Jones spring-parsley	Parsley	G2 (as *Cymopterus jonesii*)	M
	Cypripedium fasciculatum	Purple slipper	Orchid	G4 (S1)	W
	Cypripedium parviflorum var. *pubescens*	Large Yellow Lady's-slipper	Orchid	G5T5 (S1)	H
	Cystopteris utahensis As of July 2022, has been treated as *Cystopteris tennesseensis* subsp. *utahensis*	Utah bladder-fern	Fern	G3?	
	Dalea flavescens var. *epica*	Hole-in-the-Rock prairie-clover	Pea	G5TNR	N
	Descurainia browniae	Brown's tansy-mustard	Mustard	G1	N

	Dodecatheon pulchellum var. *zionense*	Zion shooting-star	Primrose	G5T2	W
	Dodecatheon utahense	Wasatch shooting-star	Primrose	G1	H
	Draba brachystylis	Wasatch draba	Mustard	G1G2	M
	*Draba burkei*	Burke's draba	Mustard	G2	W
	Draba inexpectata	Uinta Mountains draba	Mustard	G1G2	H
	Draba kassii	Kass rockcress	Mustard	G1	H
	Draba maguirei subsp. *maguirei*	Maguire's draba	Mustard	G2 (as *Draba maguirei* var. *maguirei*)	W
	Draba maguirei subsp. *stonei*	Stone's draba	Mustard	GNR	Nr

	Draba ramulosa	Belknap Peak draba	Mustard	G1	H
	Draba santaquinensis	Santaquin draba	Mustard	G1	H
	Draba sobolifera	Creeping draba	Mustard	G2	H
	Draba zionensis	Zion draba	Mustard		
	Echinocereus relictus		Cactus	GNR	exH
	Enceliopsis nudicaulis var. *bairdii*		Sunflower		exH
	Epilobium nevadense	Nevada willowherb	Evening primrose	G2	W
	Epipactis gigantea	Giant helleborine	Orchid	G3G4	L
	Ericameria lignumviridis (syn. *Haplopappus lignumviridis*; the habitat of this species is incorrectly	Greenwood's	Sunflower	G1	H

	described in FNA (2016) which in turn was based on Welsh (*Utah Flora* series) - it is not a riparian species)	golden bush			
	Erigeron canaani	Canaan daisy	Sunflower		
	Erigeron carringtoniae (considered by an increasing number of sources as a synonym of *E. untermannii* but there are habitat/elevation/morphological differences)	Carrington's daisy	Sunflower	G2 (under *E. untermannii*)	W
	Erigeron cronquistii	Cronquist's daisy	Sunflower	G2	W
	Erigeron garrettii	Garrett's daisy	Sunflower	G2	W
	Erigeron goodrichii	Goodrich's daisy	Sunflower	G3	H
	Erigeron huberi (to be changed to *E. radicatus*)	Huber's daisy	Sunflower	GNR	W
	Erigeron kachinensis	Kachina daisy	Sunflower	G2	H

	Erigeron katiae	Katie's daisy	Sunflower	G1S1	N
	Erigeron maguirei	Maguire's daisy	Sunflower	G2 (formerly LE/LT, see bottom)	W
	Erigeron mancus	La Sal daisy	Sunflower	G2	H
	Erigeron proselyticus	Cedar Canyon daisy	Sunflower	G3	W as *Erigeron sionis* var. *trilobatus*
	Erigeron untermannii (see also *E. carringtoniae* which some taxonomists consider to be a synonym of *E. untermannii*)	Untermann's daisy	Sunflower	G2	W
	Erigeron zothecinus	Alcove daisy	Sunflower	G1	
	Eriogonum aretioides	Widtsoe buckwheat	Buckwheat	G2	W

	Eriogonum brevicaule var. *loganum*	Logan buckwheat	Buckwheat	G4T2	W
	Eriogonum corymbosum var. *cronquisti*	Cronquist's buckwheat	Buckwheat		
	Eriogonum corymbosum var. *smithii*	Flat Top buckwheat	Buckwheat	G1 (as *Eriogonum smithii*)	H
	Eriogonum mitophyllum	Lost Creek wild buckwheat	Buckwheat	G1	exH
	Eriogonum natum	Son's or Mark's wild buckwheat	Buckwheat	G3	H
	Eriogonum nummulare var. *ammophilum*	Ibex buckwheat	Buckwheat		
	Eriogonum ostlundii	Elsinore	Buckwheat	G3Q	M

		buckwheat			
	Eriogonum pharnaceoides var. *cervinum*	Wirestem buckwheat	Buckwheat	G4T3 (T2/T3 equivalent in Utah; NatureServe state rank: S2S3)	M
	Eriogonum phoeniceum	Scarlet buckwheat	Buckwheat	G1Q	
	Eriogonum racemosum var. *nobile*	Bluff buckwheat	Buckwheat		
	Eriogonum racemosum var. *zionis*	Zion buckwheat	Buckwheat		
	Eriogonum soredium	Frisco buckwheat	Buckwheat	G1 formerly C 02/23/11, removed 12/19/18	H
	Euphorbia nephradenia	Utah spurge	Spurge	G2	

	Festuca dasyclada	Utah fescue	Grass		
	Frasera ackermaniae	Ackerman's green gentian	Gentian	G1	exH

	Sphaeralcea janeae	Jane's globemallow	Mallow	G2	H
	Sphaeralcea psoraloides	Psoralea globemallow	Mallow	G3	H
	Sphaeromeria capitata To be moved to *Artemisia capitata*	Head sphaeromeria	Sunflower	G3	M
	Spiranthes diluvialis	Ute lady's tresses	Orchid	G2 **LT 1/17/92**	H
	Stephanomeria occultata		Sunflower	G1	exH
	Stephanomeria tenuifolia var. *uintaensis* (questionable taxon)	Uinta wirelettuce	Sunflower	G5T1 (*S. minor* var. *uintaensis*)	W

	Talinum thompsonii (name will be changed to *Phemeranthus thompsonii*)	Thompson's talinum	Purslane	G1	H
	Terraria haydenii	Hayden's mustard	Mustard	G1	exH
	Tetradymia canescens var. *thorneae*		Sunflower		exH
	Thelesperma subnudum var. *maliterrimum*	Tavaputs greenthread	Sunflower	G1SNR	
	Thelesperma windhamii Included under *T. subnudum* by FNA	Alpine greenthread	Sunflower	G5T2 (*T. subnudum* var. *alpinum*)	M
	Thelypodiopsis ambigua var. *erecta*	Kanab thelypody	Mustard	G2G3	
	Townsendia aprica	Last chance townsendia	Sunflower	G2 **LT** 8/21/85	exH

	Townsendia goodrichii	Sherel's Townsendia	Sunflower	G1	H
	Townsendia jonesii var. *lutea*	Sigurd townsendia	Sunflower	G4T2	H
	Townsendia montana var. *caelilinensis*	Skyline townsendia	Sunflower	G4T2T3 (*T. alpigena* var. *caelilinensis*)	W
	Trifolium friscanum	Frisco clover	Pea	G1 formerly C 02/23/11, removed 12/19/18	H
	Trifolium variegatum var. *parunuweapensis* Included more recently within the concept of *T. mucronatum* subsp. *laceru m*, synonymous in turn with *Trifolium wormskioldii* var. *arizonicu m*.	Sand seep clover; Kane white-tip clover	Pea	none	exH

	Viguiera soliceps (name will be changed to *Heliomeris soliceps*)	Tropic golden eye	Sunflower	G2 (*Heliomeris soliceps*)	H
	Viola beckwithii var. *cachensis* 2010 presentation: In search of Beckwith's violet [in Utah] and the discovery at Red Butte Garden	Beckwith's violet (Shoshone violet)	Violet	G4S2 recommended: G4T1S1	H
	Viola charlestonensis	Charleston Mountain violet	Violet	G3Q	W
	Viola clauseniana	Clausen's violet	Violet	G1	exH
	Viola frank-smithii	Frank Smith's violet	Violet	G1	W
	Xylorhiza cronquistii	Cronquist's woody aster	Composite	G1Q	H
	Xylorhiza glabriuscula var. *linearifolia*	Moab woody aster	Sunflower	G4T1T2	H

	Yucca sterilis	Sterile yucca	Agave	G4G5T1T2 (as *Yucca harrimaniae* var. *sterilis*)	exH
	Zigadenus vaginatus	Alcove death camas	Lily	G2	M

Taxa formerly federally listed in Utah

***Astragalus perianus*:** listed as threatened effective 5/27/78, delisted eff. 10/16/89, more information (species was listed prematurely prior to being fully surveyed, the indication that it "recovered" by FWS is not accurate; still considered rare and is therefore contained in the list of globally rare plants above; the first ever plant species to be delisted under the Endangered Species Act and for reasons unrelated to taxonomy, delisting action was initiated by Dr. Duane Atwood then of the USFS)

***Astragalus desereticus*:** listed as threatened Oct. 20, 1999, delisted via rule published Oct. 18, 2018, delisting effective Nov. 19, 2018, more information

***Echinocereus engelmanii* var. *purpureus*:** listed as endangered 10/11/79, delisted eff. 12/27/89, more information (no longer considered a valid taxon, however, there remains a purple-spined form of *Echinocereus engelmanii* that warrants conservation attention)

***Echinocereus triglochidiatus** var. *inermis*:** listed as endangered eff. 12/7/79, delisted eff. 9/22/93, more information (while no longer considered a valid taxon, this mostly spineless form of what is actually *Echinocereus mojavensis** still warrants and receives management attention; *as now understood and unrelated to prior disposition of the "*inermis*" variety, the species *Echinocereus triglochidiatus* does not occur in Utah)

***Erigeron maguirei*:** listed as endangered effective 10/7/85 (FR 9/5/85), reclassified to threatened effective 7/19/96 (FR 6/19/96), delisted eff. 2/18/11, more information
